Dear 692 BCIT RCACS cadets and families,

UPDATE - Tuesday November 17: We are able to continue with locally supported optional training alongside our core Thursday night training. This means we can continue to deliver all of Band, Effective Speaking, Drill Team, Ground School, First Aid, and Marksmanship. Unfortunately, all activities beyond that, including Area and Regionally Directed Activities, overnight activities, remain paused effective 21 Nov 2026 until 31 Mar 2027. All planned weekend activities scheduled for 21-22 November 2026, including this weekend's FTX, Familiarization Flying and beyond are cancelled. Thank you for everyone's patience and understanding as we navigate through the changes for this training year.

As part of the ongoing fiscal review across the Cadets and Junior Canadian Rangers Group, Regional Cadet Support Unit Pacific has been directed to implement expenditure reductions to ensure we remain within approved financial allocation for FY 2026/27. Over the past several days, Regional staff have reviewed planned activities and identified opportunities to absorb financial pressures while protecting the core portion of our program. Due to the current fiscal environment, all Regional and Area-level activities are paused for the remainder of the current fiscal year, ending 31 March 2027. These measures are intended to preserve local training and ensure continued delivery of the core Cadet Program while addressing current fiscal pressures. Activities directly supporting the conduct of weekly training remain RCSU

Pacific's priority. We recognize that this direction will come as a surprise to most, and will be disappointing to cadets, families, and teams who have invested considerable time and effort in planning activities for the year ahead. We share that disappointment. These are not measures that would be taken if the resources were available to sustain the program as planned. We also recognize that this announcement will raise many questions, and we ask for your patience as we continue to assess the full implications of these measures and develop additional guidance. RCSU Pacific staff are working diligently to determine the exact status of the region's budget, and the implications for activities across the remainder of the fiscal year.

Your patience and cooperation are appreciated as we work to gain greater clarity regarding this fiscal situation and to provide more detailed information in the coming days. Please direct all questions to 692Air@cadets.gc.ca.

Best,

Capt Jeff Tan, CD

Commanding Officer, 692 BCIT Aerospace RCACS
